## General Education Requirement Worksheet

Occidental requires all students to complete seven General Education requirements in order to graduate from the College. Transfer students are encouraged to complete as many of these requirements as possible before transferring to the College, although **applicants are not required to complete all requirements before applying to the College**. General Education requirements are the easiest course credits to transfer and completing them prior to entering the College allows you to immediately focus on the classes in your major.

The following worksheet is designed to help you estimate the number of Occidental General Education credits you will have completed before entering the College. In completing this worksheet, be sure to include courses in progress as well as completed courses.

1. English Writing: Students must complete 6-8 units of colleg	ge-level writing/composition courses.	
Course Number & Name	College/University	Number of Units Received
a.		
b.		
2. Foreign Language: Students must complete 8 units of colle demonstration of competence in a non-English language the Advanced Placement foreign language test score of 4 or 5 or (determined by individual language departments).	rough placement tests taken during New Stud	ent Orientation or b) submitting an
