

# Bell-Young Hall Fact Sheet

We can help you get the most out of your Bell-Young Hall experience. Our staff is here to help you with all your needs. For more information, please contact the REHS staff.

## Temperature How-To

Bell-Young Hall is a large building with many rooms. The temperature in the building can vary. We recommend that you set your thermostat to 68°F (20°C) during the day and 75°F (24°C) at night. This will help you stay comfortable and save energy.

If you are having trouble with your thermostat, please contact the REHS staff. We can help you troubleshoot the problem. If you are having trouble with your thermostat, please contact the REHS staff. We can help you troubleshoot the problem.

## Temperature Tips

### Need to cool down?

- Keep your windows closed during the day. Open them at night to let the cool air in.
- Fans can help circulate the air. Set your fans to blow at a low speed. Be sure to clean your fans regularly.
- Use ceiling fans. They can help circulate the air and keep you cool.
